Java

```java
class Solution {
    public int maximumDetonation(int[][] bombs) {

    }
}
```

JavaScript

```javascript
/**
 * @param {number[][]} bombs
 * @return {number}
 */
var maximumDetonation = function(bombs) {

};
```

C++

```cpp
class Solution {
public:
    int maximumDetonation(vector<vector<int>>& bombs) {

    }
};
```

C#

```csharp
public class Solution {
    public int MaximumDetonation(int[][] bombs) {

    }
}
```
